| <input type="checkbox"/> Eye Infection | <input type="checkbox"/> New Condition | <input type="checkbox"/> Existing Condition | <input type="checkbox"/> Surgery Consultation |

Please Explain: _____

Dilation: For an important and thorough view of the back of the eye, we instill drops which cause your pupils to enlarge. The drops require about 30 minutes to take effect. Afterwards, you will be sensitive to bright lights and you may have difficulty focusing on close objects. The effect may last for 4 hours. Do you wish to be dilated today?

- Yes No Need more information

Retinal Photography: The doctor would like to take a picture of the back of the eye. These images help us to identify, compare, and monitor your internal eye health. They are used as a baseline to compare any changes to your eye health on a yearly basis, and identify problems due to diabetes, glaucoma, high blood pressure, and hardening of the arteries. This test is highly recommended and is available for an additional fee of \$45.00 . Would you like these pictures to be taken and included in your permanent records?

- Yes No Need more information

Medical History:

Do you take any medications? No Yes (If yes, please include oral contraceptives, over the counter medications, aspirin, and supplements.)

Do you have any allergies to medications? No Yes If yes, please explain: _____

List all major injuries, surgeries, and medical conditions: _____

Check any of the following that you have had: dry eyes cataracts glaucoma crossed eyes
 floaters retinal disease/detachment macular degeneration eye injury eye surgery
